Recording summary

Recording filename : (recorded from extension)
Recording time   : Jan 22, 2020 5:47:36 PM
Request origin   : none specified
Total page loads   : 2
Tracking codes   : 1 (1 authorized for vitaliy.shulha@manticoresearch.com)
Selected property : Manticore Search (UA-107528335-1)

Alerts

This section summarizes the errors and warnings, as well as any suggestions for improving your site.

⚠️ This page took a long time to send a pageview hit to Google Analytics. Users could be clicking away from your site before it records a pageview.

🛑 Event hits must be sent after a pageview hit, but this event hit was not preceded by a pageview.

Views summary

This section shows how the recorded hits would appear in the selected Google Analytics views. If the data is not what you expected, review the Flow section below to troubleshoot the problem.

All Web Site Data

👥 **Audience**

This section shows how this recording would have been aggregated into the Audience section of Google Analytics.

Browser

Browser	OS	Language	Sessions
Chrome	Windows	en-us	1

Location

You can set a location to test location-based filters. You can also set an ip-address to test ip-based filters.

↗️ **Acquisition**

The information in this section approximates what would be displayed in the Google Analytics Acquisition reports. Note: Campaign information is limited to utm_campaign, utm_term, etc. parameters. Information that would be populated by AdWords campaign data won't be available.

Source (utm_source)   : (direct)
Medium (utm_medium) : (none)

▦ Behavior

First/Last page

First page hit	Last page hit	Average page hits	Sessions
/downloads/	/downloads/	1	1

Site Content

URI	Page hits
/downloads/	1

Events

Category	Action	Label	Counts	Sum
download	*	*	3	0
	click	distributive	1	0
	click	directly	1	0
	click	link	1	0

⚑ Conversions

This section displays conversions completed during the recording session, such as Goal completions and ecommerce transactions. Note: The information here approximates what would be displayed in Google Analytics. There may be reasons why your attribution shown in Google Analytics is different, such as alternative attribution modeling.

Goal steps for Session 1

Index	Name	Type	Steps	Value	Completed
2	Downloads_page	Destination	1/1	0.00	✓
8	Download_modal	Event	1		✓
10	Download_directly	Event	1		✓
11	Download_link	Event	1		✓

Flow

This section shows recording details for each page loaded and the hits sent from that page, if any. A single page may have multiple hits and multiple hit types. You can use this to troubleshoot issues by digging deeper into the data.
